Work experience

Front End Developer   07/2015 – 11/2015
Stefanini: IT Outsourcing & Software Application Development – São Paulo, Brazil

- I have created the FrontEnd application for an intern product (Account Management for Banks) of Stefanini. And I have used HTML5, CSS3, JavaScript, jQuery, Ajax, Web Services, PostgreSQL, SVN, ReactJS, JavaScript ES6, JSON, REST, BOWER, GULP, JUNIT, MAVEN, Bootstrap and in some other applications I used Materialize.

Leader Development Team   07/2014 – 05/2015
Superabiz, São Paulo – Brazil

- I was responsible for leading a development time, deployment and customization the TOTVS Fluig Solution – that is a new and great platform in Brazil and it contains ECM (Enterprise Content Management), BPM (Business Process Management), WCM (Web Content Management), Social, Identity, Analytics and ESB (Enterprise Service Bus). The development and customization was developed with JavaScript, Jquery, Bootstrap, HTML5, CSS3, Web Service, Rest and BPM Notation.
  I was also responsible for:
- Requirements elicitation / process engineering.
- Development technical documentation.
- Conducting training for the users.

- Projects carried out for those companies (Afeet Group, ADESTE Group, Grafite Fairs and Teresa Perez Tourism)

Au Pair/Nanny (Ireland)   09/2013 – 05/2014
- Experience with English language and other culture with the help of a host family. The experiences with kids were great for my auto development.

IT Volunter   07/2013 – 08/2013
Edge-Export, Dublin - Ireland

- I fixed the bugs in Edge-Export's system control using VBA for Excel Advanced.

Software Analyst   03/2013 – 05/2013
Azix Informática, São Paulo - Brazil

- I participated of development of the Web Application of sanitation services registry, with capture, validation and standardization of field, rule checking address and all business rules defined by the customer. The service may include load data into operational bases of ERP, CRM with C#, ASP MVC, ASP.NET, DataLinq, Jquery, SQL SERVER 2008.

- And also I have maintenance their olds web application in C# and SQL Server.

Software Analyst   02/2011 –02/2013
Equipaindustria.com.br, São Paulo - Brazil

- I have participated of developing e-commerce customizable and easy to use for our customers; our customers can have their own e-commerce without having to understand programming. Fully customizable and user friendly using ASP MVC, C#, SQL Server.
- I have developed internal systems and websites with ASP.Net, C#, Jquery, Fluent NHibernate and SQL SERVER 2008.
- (ETL) - Process DataBase (Excel, Txt) to our database with schedules in SQL Server.
- I also participated as internal quality auditor at the company Taquions (sub company of the Equipaindustria.com.br).

Developer   12/2006 – 02/2011
